

IP 400 Digital Station 16 Module V2 (700359839)

Adds an additional 16 Digital Station ports to IP406 and IP412 control unit. Avaya IP400 16-port digital station module. Used to connect 44xx, 64xx, and 2420D telephone sets to the IP Office. Requires 1 rack mount kit and 1 power lead.

The DS V2 supersedes the original IP400 Digital Station, now referred to as a DS V1. The module version is indicated by labels both the base and the rear of the module. Key changes are:

- ✓ The DS ports have been rotated 180° to allow easier connection access.
- ✓ The port status LED's have been moved and grouped adjacent to the ports.
- ✓ The DTE serial port on the rear of the module has been changed to a 9-pin D-type socket.
- ✓ The DS V2 uses an earthed 3-pin 60W external power supply unit.
