

EC 6000 DCS 6000 CAT-5e STP Cable Assembly

Configuration

EC 6000-0.5 - DCS 6000 CAT-5e STP Cable Assembly 19.69 in. (50 cm)
EC 6000-01 - DCS 6000 CAT-5e STP Cable Assembly 39.37 in. (1 m)
EC 6000-02 - DCS 6000 CAT-5e STP Cable Assembly 6.6 ft. (2 m)
EC 6000-03 - DCS 6000 CAT-5e STP Cable Assembly 9.8 ft. (3 m)
EC 6000-05 - DCS 6000 CAT-5e STP Cable Assembly 16.4 ft. (5 m)
EC 6000-10 - DCS 6000 CAT-5e STP Cable Assembly 32.8 ft. (10 m)
EC 6000-20 - DCS 6000 CAT-5e STP Cable Assembly 65.6 ft. (20 m)
EC 6000-30 - DCS 6000 CAT-5e STP Cable Assembly 98.4 ft. (30 m)
EC 6000-50 - DCS 6000 CAT-5e STP Cable Assembly 164 ft (50 m)

This shielded CAT-5e cable assembly is used to link the many components of the DCS 6000 system together. The system has been designed to only be used with shielded (STP or FTP) CAT-5 cabling. Performance of the system can not be guaranteed if shielded CAT-5 cabling is not used. This standard STP CAT-5e cable features screened, durable RJ45 metal connectors.

Highlights

- Cost-effective structured Cat-5e cabling.
- Robust, screened connector.

Used With

CU 6005	DM 6060 P	DM 6560 F
CU 6011	DM 6070 P	CM 6660 F
EX 6010	CM 6070 P	MU 6040 D
AO 6008	DM 6090 P	MU 6040 C
PS 6000	CM 6090 P	MU 6042 D
RP 6004	DC 6990 P	DV 6501 F
AO 6004	AM 6040	CS 6032 FHB1
JB 6002	DM 6060 F	IS 6132 P
JB 6004	CM 6060 F	CO RJ45 F
DM 6010 P	DM 6510 F	

Includes

EC 6000-xx

Specifications

Interconnections	DCS-LAN	One (1) male-male cable pre-terminated with screened RJ45 connectors
Physical	Dimensions (H x W x D)	Variable Lengths
	Color	Black
	Unit Weight	Variable Lengths
	Shipping Weight	Variable Lengths

FAQ's

- Q** How far can the daisy chain cabling go?
A 200 meters without any repeaters. Up to 640 meters with repeaters and further when using optical cables. Contact Listen tech support for more information.
- Q** Is the cabling proprietary cabling?
A No, but it must be shielded Cat-5 (FTP /STP). Depending on the specification, higher shielded CAT cables can be used for extension cables as well.
